

JULIA ROBERTS

GET THE LOOK

BY ASHLEY KOWALEWSKI

Julia Roberts is Hollywood's sweetheart with her hundred-watt smile and seemingly age-defying look. After the Oscar-winning actress made her triumphant return to the silver screen in the much-anticipated *August: Osage County*, we just had to tap the pros on how to get her effortlessly flawless and covetable look.

SMILE The key to an attractive smile, as with all facial beauty, begins with symmetry and balance. Julia Roberts has a notably beautiful smile because of its straightness, colour shade, the facial alignment of her two upper central incisors with her nose and chin, as well as the ideal amount of gum tissue visible when smiling. Treatments include orthodontics to straighten crooked teeth (on average \$6,000), veneers to correct misshaped or discoloured teeth (\$800per/tooth) and teeth whitening to lighten stained teeth (\$300).

SKIN Use a daily moisturizer with SPF 30. There are several common procedures that are considered non-invasive to help maintain a youthful complexion like Roberts'. To treat frown lines and "smile lines," we typically use Botox, Dysport or Xeomin (\$300 to 800). Individual brown "sun-induced" spots on the face can be treated with pigment-specific lasers (\$300 to 800) to make the skin tone more even.

NARS Satin Lipstick in Pigalle

Laura Mercier Creme Smooth Foundation

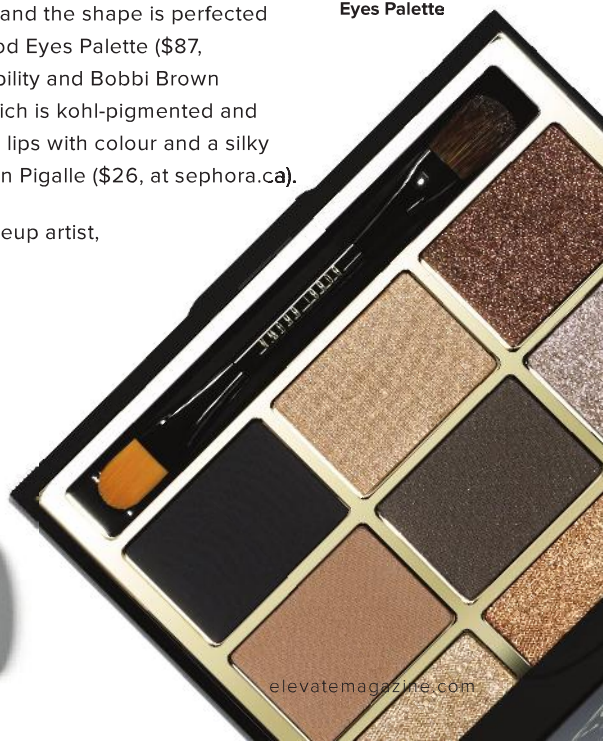

MAKEUP To achieve this look try a lightweight foundation that provides coverage and a satin finish, such as Laura Mercier Creme Smooth Foundation, (\$50, at Holt Renfrew). Julia's eyes are the main focus and the shape is perfected with Bobbi Brown Old Hollywood Eyes Palette (\$87, bobbibrown.ca) for ultra wearability and Bobbi Brown Smokey Eye Mascara (\$33), which is kohl-pigmented and delivers high drama. Define the lips with colour and a silky finish with NARS Satin Lipstick in Pigalle (\$26, at sephora.ca).
